## Brent Phillips – Transcript

Edward: Welcome everyone I'm Edward Mills. I'm the producer and the host of this energetic of TRUE Abundance Telesummit and I am so glad that you are on the call with us tonight. We have a very special guest tonight and I'll be introducing Brent Phillips in just a minute. But I wanted to sort of give a little overview of the call and this whole series because we're just getting started this is our second call in the series this is an intensive. We have 10 amazing master teachers and healers this week that you're going to be learning from and experiencing their energetic healing techniques. And one of the things that we're really doing here, and this is an intention that I've been setting for the last couple of weeks as I've been working on this and as we've been coming into this week, is really we are generating a field of positive energy. If you listen to Abraham and the Law of Attraction teachings they talk about a vortex. And I really, really want you to get, and hopefully feel, that as you come into this call you are entering a vortex of pure powerful positive abundance energy. And as this week progresses each call is going to build on the last call. So we're going to continue to build this energy and raise our vibration and move deeper and deeper and more fully into a vibration of abundance.

Ann Taylor, for those of you on the call today, you just know, you felt, how she was able to really just raise the vibration of the whole call with her healing work. And I know this is going to happen tonight again with Brent and it's just going to keep happening we're just going to keep building on that. So I want you to really to pay attention to not just listening with your ears, not just listening and learning with your mind, but focusing on paying attention with your energetic body, with your intuition. See if you can really hear or feel the vibrational essence of the lessons that you're learning of the exercises and the processes that you're experiencing. Because when you can do that, when you can begin to tune in to the energetic essence the vibrational essence of what's happening, then you've added a whole new level of an ability for you to change your world. Because you're not just thinking, you're not just acting; you're not just feeling emotionally, you're tapping into the underlining energetic vibration. And that's really what this is all about, that's what the energetic of TRUE Abundance is all about it's about giving you tools, techniques, processes and insights to allow you to be able to use your energy consciously, intentionally to create TRUE Abundance in your life.

And tonight I am so excited to have Brent Phillip-s on the call with us. I know this is going to be just an incredible call. Brent before becoming a healer was a successful MIT trained Software Engineer and his life was literally shattered by a decade long health crisis. It left him in pain, unable to work, and then he discovered Theta Healing and his arm healed in an instant. Today Brent's a full time Theta Healing practitioner, he's an instructor of Theta Healing and he's the author of *"Where Science Meets Spirit: The Formula for Miracles"*, and *"Spiritual Weight Loss"*. And Brent facilitates hundreds of instant miracle healings and prosperity and life transformation. He's developed a patent pending *Formula for Miracles Technology* and that blends spiritual and technological innovation to create audio programs, automatically reprogram the subconscious mind just by listening to them. And the first product to incorporate this technology is his *Unleash Your Inner Millionaire Program* and we're going to hear more about that later on in the call. Brent, I really am so thrilled to have you on the call. I'm so pleased and I just want to welcome you to the call tonight.

Brent: Thanks. I'm really glad to be here.

Edward: Excellent. Well I would love to start by asking you what your definition of TRUE Abundance? How would you define TRUE Abundance?

Brent: Well you know that's a great question because my spiritual journey has certainly showed me that my answer today is much different than it would have been before 10, 20 years ago. The old answer if you asked me before I was so involved in this I would have said having tons of money, cars, houses, boats, investments, passive income, diversified, that you basically have all the money you need. Today I have a very different view of it I would really say that real abundance is the knowingness to be able to attract and manifest what you need as you need it. And so it's really about your relationship with the universe and being in tune with that enough that you're able to just create what you need as you need it because that let you stay totally present because all the concerns about having money in the bank actually just put you into your head and shut off the divine flow, which is the source of your prosperity.

Edward: Interesting.

Brent: So yeah I would say just being able to live in faith and trust and knowing that you're able to create what you need as you need it and just keep your eyes open for all the coincidences and miracles that happen along the way.

Edward: Now was there a time in your "past life" as an engineer when you were actually living a life aligned with your old definition of abundance?

Brent: For awhile I was certainly headed in that direction. What had happened was when I got to MIT I discovered the internet and that became a huge passion for me and so that made the focus to my studies? And so by the time the internet hit the main stream, in the early to mid 1990s I was in Grad school pursuing my PhD at the Laboratory for Computer Science there at MIT and so I saw myself as being one of the world's experts on internet technology. So I left graduate school early to form two internet companies, one that did Web sites and one that did video games, and for awhile it was definitely looking like I was on the right track. I remember after about a year I had 15 people working for me a whole roster of Fortune 500 clients, the industry was exploding, there was just money to be made everywhere. And it seemed that it was just a question then of how big this would get. It wasn't a matter of what I make my millions it was just a matter of when and how many.

And so everything then fell apart when I lost my house and so that lead to a spiral down where I lost my health, and I lost my worth, and I lost the companies I had founded, I lost my friends, I was in pain. And so basically I thought it was basically right in my grasp and as I reached out for it, it all disappeared and I ended up in a worse place than I ever could have imagined.

Edward: Wow!

Brent: Yeah.

Edward: It really sounds like you went through what someone would call a Dark Night of the Soul type of journey.

Brent: Yeah though it was just the first of many unfortunately. But it seems that in the old days in the old energy you just got one in a lifetime, nowadays things seems to really be speeded up so a lot of us are being challenged repeatedly and seriously in our lives, and just have everything seem to go wrong, everything taken away.

Edward: Yeah.

Brent: So yeah but along the way I found some wonderful new things that I think are far more valuable than having that internet company and millions of dollars in the bank would have been.

Edward: Now when you talk about your new definition of TRUE Abundance is it a definition that allows you to live in alignment with your desires?

Brent: Absolutely, because most people don't get the full picture about the Law of Attraction and how you're really creating your world. And what most of us are taught is that well if you just think positively and say your affirmations and mantras and all that that you will be able to connect to this energy and make lots

of money. Well what we find in practice is for most people that doesn't work very well, at least not right away, at least not most of the time. And so I remember I was in a position about 10 years ago after I had lost my job, got pushed out of the company, my partners took the web company sold it for millions of dollars behind my back, there were lawsuits, doctors told me I could never work again that all treatments to cure me had been given up on that they could do was try to manage my pain, I mean I was told all these different things. And one of the things I did was got into positive thinking like a lot of us do when we're in a very tough place.

Edward: Yep.

Brent: And so I listen to a lot of great motivational tapes and hung power words on my walls and sent my mantras 108 times a day that I was doing all this stuff, and it made me feel good but nothing major changed. And so what happened to me was I got disenchanted with it and I actually got angry and I thought, well this is a bunch of crap it doesn't work, and so I threw it all away. And then little did I know that it actually does work you just have to know what you're doing you have to kind of see the big picture. And so for me what happened was that years later when I was introduced to the power of the unconscious mind I realized that really the true source of our prosperity really is our mind in terms of how our mind is programmed to interact with the universe, it creates our health, it creates our prosperity, it creates our relationships, and if you know how to work with that you can actually make an enormous difference in your life.

And so if you know how to program your subconscious mind, how to connect to prosperity, what you'll find is that the abundance will flow and it gets turned up even higher every time you sort of allow yourself to get out of the way and surrender to a higher power; that's what kind of turbo charges that flow. And so I would say absolutely my journey have shown me that in terms of prosperity how we created is a science that can be learned, but at the same time you do need to be open to guidance from above because when you're lined up with your mission everything will just happen like magic.

Edward: You bring up some really great points and I'm sure that many of the people on this call have had the same experience of you. I know I have had the same experience of doing everything "right", doing all the positive thinking and the mantras, and all that and not see any changes.

Brent: Yeah.

Edward: And then you said you gave up and sort of threw it out but then in the next sentence you said that it really does work. Are you saying that it was working for you when you were doing it and you weren't aware of it or that you were missing

a piece or doing something not quite right that was causing it not to work for you at that?

Brent: Yeah I was missing a piece. And so what we need to understand is that instant healing and prosperity and all these things it is a form of technology. There are laws that govern how it works and if you're able to learn those laws you can apply engineering principles to create things in the same way that if you learn the basic laws of engineering you can create buildings and bridges and airplanes and things. And so there is a technology to it and when you're trying to create something if you don't get it quite right there's many different ways to get it wrong. There's a million things on an airplane or a car that if you got them wrong it just wouldn't work.

Edward: Right.

Brent: And so really the short answer is that I was missing something huge. I was missing about 95% of the puzzle not just one piece, but the big, big majority of it and that's the unconscious mind, what you might call the Subconscious Belief Systems or Subconscious Programming. And so most of us using the Law of Attraction are really only seeing 10% of that picture the rest of it is covered up, what we call the Subconscious for the Unconscious, which typically we see as this kind of mysterious and visible force that we know is there and we know it's powerful but we don't really know how it works or what it does or even what's in there you know.

So it was only when I was introduced to Theta Healing that I learned about the other 90% of this picture, the other huge, huge missing piece, which was the vast majority of what creates your health, what creates your relationships, what creates your career or your prosperity, your income is all these subconscious energies. And so if 90% of you wants one thing and 10% of you wants another guess who's going to win, well the 90% is going to win every time right.

Edward: Yep. Yep.

Brent: And so most of us are chalked full of these subconscious blocks and that's why the Law of Attraction doesn't work so much for many people. We have these things that are inside of us, many of them are inherited from our ancestors through the DNA, we carry them in from other lifetimes, we pick them up as children, there's all these different ways our unconscious mind gets programmed and it has all these blocks. And so what happens is many of these different money in abundance of prosperity programs that you see advertised out there they come with these amazing testimonials. It's like, oh wow I went to Dr. X's Weekend Program and within the next three days I made \$18 million dollars and healed from cancer and met my soul mate. Wow, we see this a lot.

Now I believe that most of those stories are real but they're rare because those are the lucky people who didn't have any subconscious blocks in the way and so ...

Edward: Or they had done enough work ...

Brent: Yeah or they'd done enough clearing so ...

Edward: ... to clear them that they were just ready for that ...

Brent: Yep.

Edward: ... instant healing.

Brent: So it just worked. Boom! And they go, oh my gosh this is so easy everyone should do it. Right. And then other people go and do it and they're like, well crap nothing happened. Well it's because you're subconsciously blocked and you don't know it. And so what happened to me was I had at the end of seven years of basically full time therapy all the conventional, all the alternative, you know you name it I tried it, I was just doing everything for years and years to try to get better. I had had a surgery and at the end of the surgery my right elbow was totally frozen and immobile, and after four months of treatments we tried to get it to move. Second operation helped a little but not a lot. It was in my first session of Theta Healing that what happened was I worked with Terri the practitioner and we spent an hour clearing through these subconscious blocks and at the end of the session she did this healing process on me where she kind of closed her eyes and eyes rolled back into her head and she went into a trance for a minute and I actually felt something pop and shift in my arm.

Edward: Wow!

Brent: And she said "What happened?" And I said "Oh my God I can move my arm." It was an instant healing and so that's what hooked me. And when I learned about it I realized that it's all about that subconscious belief systems. And so if you know the basics of Law of Attraction, how to manifest, how to put into tension out here, if you match that with a clear subconscious it works and that's when the miracles happen.

Edward: Now what lead you to Theta Healing because it seems a little not quite in alignment with being an MIT engineer? Was it just sort of desperation that after seven years you were ready to try anything or were there something ...

Brent: You know it's funny ...

Edward: ... that really attracted you?

Brent: ... on the surface it does seem that it doesn't fit but from my perspective now it seems like the most natural thing in the world. At the time I did it because I was

basically desperate. I'd been in full time therapy for seven years I had worked with dozens of the very best acupuncturist and orthopedist and physical therapist and chiropractors, osteopaths, Chinese doctors. I worked with the physical therapists who do Olympic athletes and many very high profile well known people who got amazing results with everybody else but me and so it was just years of treatments that led nowhere, and now in retrospect I realized that it was subconscious blocks that no matter what treatment I got nothing was going to work for me because I was in my own way.

And so I turned to Theta Healing because it was actually my Aunt Loren who had told me that her old friend Terri had had a major health crisis and Theta Healing had pulled her out of it and literally saved her life. And that she got so impressed with Theta Healing that she gave up her career in Finance, where she was very successful, to be a full time healer.

Edward: Wow!

Brent: And so part of me just wanted to convince myself and everyone else that I'd tried everything. And so I had to go try it just so I could know that I tried everything. And the other part of it ...

Edward: Yeah just scratch that one off.

Brent: ... was I just wanted to - yeah exactly. And I wanted to kind of shut up my Aunt about it because she had mentioned it three or four times. Like every time we talked she was like well, did you talk to Terri? Did you try Theta Healing? I was like yeah, maybe next week, whatever right. And so eventually I was like all right fine, I might as well just do it and be over with. And so it was really a combination of desperation and frustration and just not knowing what else to do that led me there. The reason now that I see it as being really a natural extension is that the process of identifying and clearing these subconscious blocks is very much like software engineering. And so many of the same principles and tools that I learn to program computers I now use directly to work with people subconscious. And so you might call what I do Metaphysical Engineering.

Edward: Interesting.

Brent: Because there really is a technology and a process to working with the mind. And like any technology if you learn the principles and learn to apply it you'll get consistently amazing results. In the same way that once you learn how to build an airplane when you know what you're doing you can consistently make flying machines something that may have seen impossible or miraculous not long before.

Edward: Right.

Brent: And so that's really what Theta Healing is what I have termed the *Formula for Miracles* is kind of my system of using that energy to automatically reprogram your subconscious mind so that you can create these things much more easily so you have the whole picture so you're not looking at 10% of the puzzle and wondering why you can't figure it out.

Edward: Well and it's interesting I find it really interesting that you went into that healing session, really it sounds like not expecting anything positive to come out of it ...

Brent: Oh no.

Edward: ... and in fact almost expecting nothing to come out of it and yet it worked. So usually in healing sessions there seems to be a need to have the client or patient be open to the positive outcome, and yet in your case you weren't and it worked. So that's pretty impressive.

Brent: Yeah the way I see it it's a technology and it's a very powerful and new technology. And so I will sometimes say that just because you don't believe in airplanes doesn't mean you can't fly in one. And so that's basically what Theta Healing was it was this new technology that did something that I considered impossible but it still worked. And so I had to kind of go find a new paradigm because everything I thought I knew ...

Edward: Now had you worked with skeptical clients?

Brent: You know I did for awhile in the beginning. All of us that do this work seriously usually go through a period where we attract a lot of skeptics, it's a reflection of our own internal skeptic that we haven't completely accepted and internalized the work yet. And so it's very common for us to go through a phase where we'll run into a lot of skeptics but once you've worked through that it really doesn't happen much. I spend very little time or energy with skeptics, I just don't attract them anymore.

You know I did, but it's funny that everybody asks me that but it's really not an issue. By the time someone comes to me if they're not interested I'm certainly not going to be the one to try to go to great lengths to sell them because I know that that would really take away their power. Anybody knows that it's kind of like dealing with cats, which I think are great training for people. It's almost impossible to make a cat do what you want you just have to setup the conditions and try to entice them to do what you like. And so that's kind of how it is for me in Theta Healing and the *Formula for Miracles*. I know it's here and I'm plenty busy with people who are on board with it and want to use it to change their lives.

Edward: Well and that's the kind of people that you want to work with you.

Brent: Exactly. And that's all I really attract anymore.

Edward: Yeah. Good. Good. I would love to hear more about how you sort of overlaid your engineering background onto this Theta Healing modality and created this technology because that really interested me because I'm similar to you in that I'm very analytical. And I have a background in computer programming and the energy work, the energy healing it resonates with that sort of technological thing. So I'm interested in how you came up with this technology and did you draw on your background as an engineer when you were creating it?

Brent: I did and that's largely what the *Formula for Miracles* is, is taking the process of energy healing like Theta Healing and applying these principles of engineering to achieve a particular result which is usually something like physical health or money and prosperity or finding love, something like that. And to me the way I understand this, let me use a computer metaphor which I think will make is really crystal clear to everybody who's listening, the way most of us think that the world works is that imagine that you're running software on your computer. And so let's say you're running your Word Processor and it's not showing the right thing on the screen, well the way most of us think of our reality in our lives when you have a problem it would be as if you're taking out a black marker and some whiteout and start drawing on your computer monitor to try to fix your problem. That's how most of us live our lives and try to make money. If there's a problem we just go try to cover up the symptoms to make it look right.

Well we both know that's ridiculous. We know that if your computer has a problem there's nothing wrong with the screen. And the same way with people struggling with money there's nothing wrong with your bank account, instead we know that that buggy software is stored on the hard drive and that the computer is reading the hard drive and running that program. And we know that if you can go in and change that software by installing a fix or an upgrade or a different program than all of a sudden the computer will be healed instantly and it will start displaying a different program that will "work". And so everything that happens in our lives is just like that. Inside of us we have this subconscious mind, what I call the Software of the Soul and it's literally working 24/7 with the Law of Attraction to create your entire life, a new one each moment, out of your energy or your consciousness. You're internal blueprint over and over and over again in the same way that the computer software is recreating the image you see on the screen, perhaps 60 times a second.

And so that's why when you make changes in your internal software and your subconscious you can sometimes see immediate shifts on the outside, that's why I've seen hundreds of miraculous instant healings on physical conditions, including my own mother who doctors told her earlier this year that she has a less

than 5% chance of surviving a cancer and now she's been declared completely cancer free and cured.

Edward: Wow!

Brent: And I've seen hundreds of instant healings like that because that's how reality really works. There is consciousness, energy inside you that's creating your whole life in each moment, the same way the computer software generates the programs on the screen. And so we've been given this technology, this ability to actually look inside of our own subconscious minds and work with it. And so the *Formulas for Miracles* technology I've developed is basically an engineering application of that. It takes all this understanding of energy and metaphysics and spirituality and creates usable product that will actually clear your subconscious mind of blocks.

Edward: Wow!

Brent: And so the first major product I released with this was "*Unleash Your Inner Millionaire*", and so that is one of my centerpiece products. And it's basically an eight hour audio program that devotes about half its time to your left brain and half its time to your right brain to maximize prosperity. And so for your left brain we give a lot of new models and metaphors and explanations of how the science of manifesting really works. It'll tie together so much you've read and learned in other areas to go; oh this is actually very easy and simple. So we give you a new model of reality, a new way of thinking for your left brain, and then we use the *Formula for Miracles Technology* on the block clearing programs to clear out all the blocks in your subconscious to wealth print and prosperity. Well maybe not all of them but at least the most common 327. And that can make a huge difference in a lot of people's lives.

Edward: Yeah exactly.

Brent: And so again we're hitting 100% of your mind to get 100% engaged to create your new reality. And that's how that works. That's what I call the *Formula for Miracles*.

Edward: Wow!

Brent: And like any other formula or technology when you use it right it delivers consistent results. It's, you know, the truth requires no defense.

Edward: Right.

Brent: You know try it and you'll see. Just like you may not believe that we can make flying machines but go to the airport and buy a ticket.

Edward: Yeah.

Brent: Convince yourself.

Edward: Well so speaking of that we've got a lot of questions coming in and I want to get to those, but I would love to, and some of the questions are about what is Theta Healing and all that, but I think the best thing for us to do right now would be to jump into the process you were ...

Brent: Sure.

Edward: ... going to lead us through a down mode to open our abundance channels and that just sounds really awesome to me and I'm sure the people on the call are wanting to experience that. So does this seem like a good time to go into that?

Brent: Yeah. Let me take a couple of minutes to explain kind of what we're doing here ...

Edward: Great.

Brent: ... and then we'll go ahead and do a little exercise. And so what we're going to do here is applying the technique of Theta Healing to make a little bit of difference, to clear some of those subconscious blocks. And so when we do this process the way it was originally developed and the way I first learned it was doing it interactively in a one-on-one private session. And typically what would happen is we would talk about what's going on in your life, we would run through some muscle testing which I'll talk more about in just a second, we would use the muscle testing to identify particular sudden conscious beliefs or blocks or problems in your subconscious, things we need to clear. And then we would use the technique to clear them out and then repeat the muscle test afterwards to ensure that they were cleared. And so then we would do a healing or a manifesting and often people will watch their lives shift.

And so that's originally how I learned it. And we're going to do something like that tonight. Once I learned how to do a one-on-one the next step for me was to learn how to do it one-on-many. And so I learned how to do groups doing the same process, then I learned how to do it through things like teleseminars, which we're going to do here in just a minute, or I can do clearing on everybody not only who's on live tonight but also everybody that listens to the recording which is really cool. The last step was when I developed the product technology *The Formula for Miracles* to actually be able to encode this system into an audio product that you could listen at any time and get clearing. But for right now we're going to go through the process of doing a couple of downloads, which are basically new information for your subconscious to help you create more prosperity.

And so I want to take just a second to talk about Muscle Testing because I've mentioned it a few times. I'm sure a lot of you guys listening are already familiar with muscle testing. Many natural paths, kinesiologists use it, a lot of Chinese doctors and it's basically a mechanism of asking your body's intelligence yes or no questions. So you tap directly into cellular memories and your body answers by passing your conscious mind. And so because your body's intelligence is your subconscious mind they're exactly the same thing. By using muscle testing you can actually ask very simple yes and no questions of your own subconscious mind and get results. And so there's a lot to be said about muscle testing.

It's a little beyond the scope of this call tonight for us to be able to go through a tutorial but the free gift that everybody's getting includes admission to my live healing teleseminar which is Tuesday evening on the 16th. And so there if you guys can join us there we're going to go through a long tutorial on muscle testing to make sure you all know how to do it. You can also download free material from my Web site and I have products and things that explain that as well. So just be aware for right now that muscle testing is how you ask questions of your subconscious mind. And so as we're doing this download process here some of you guys probably already know how to do muscle testing. If you do I encourage you to use it as we go along, if you don't we'll just skip it for now but I encourage you to learn how to do it later. It only takes about 10 minutes or so to learn how to test and they're going to be able to ask questions of your own subconscious mind for the entire rest of your life. Pretty neat huh?

Edward: Yeah it is.

Brent: So now what we're going to do is we're going to do a couple of downloads here and clear a couple of common blocks to prosperity.

Edward: Great.

Brent: The first thing I'm going to do is I'm going to get silent here for a second to connect to everybody and setup the process. Okay. So the first one we're going to do is we're going to check in the subconscious to see if you know how to be rich and if you don't we're going to install new software do what we call a download to teach you how to be rich. And so if you guys know muscle testing go ahead and muscle test yourself for *I know how to be rich*. If you don't or if you got a no on that I'm going to take a second here and do the Theta Healing download on *I know how to be rich*.

Okay all done very fast easy process. And so if you guys know how to muscle test I know would ask you to test again *I know how to be rich*. What you're going to find is for almost everybody who had a no before or a false result now it's going to say yes. And so we've literally rewired your subconscious mind in that

brief split second when I was silent and this tends to hold for the entire rest of your life. Pretty cool huh?

Edward: Yeah.

Brent: So let's do a couple of more. We're going to follow the next one for you guys who know how to muscle test. Go ahead and test *I know what it feels like to be rich*. And so if you got a no or backwards or if you don't know how to test I'm going to go sign on here for a second to bring in that download for everybody through Theta process. Okay all done. And so if you guys are muscle testing go ahead and test *I know what it feels like to be rich*.

Edward: I got to tell you I didn't need to test I could feel that shift.

Brent: Yeah. And if you guys are energy sensitive you'll be able to feel the shift too. And so that's an example of two what we call Downloads, which is bringing you new information so your subconscious can create new and different things, because if you don't know how to be rich you won't be able to manifest that.

So now we're going to clear two very common blocks to prosperity. The next one we're going to clear if you guys are muscle testing please test *I have to be poor to be close to God*.

Edward: That's a good one.

Brent: And so if you have a yes or a forward what that means is you're probably carrying a belief system from another lifetime, maybe one of your ancestors is really religious that you have to be poor to be close to God. And so in the subconscious level you'll always choose being close to God over money because God is eternity and forever and money is just a passing material thing. It really has no meaning to the soul. In fact, Vianna Stibal, who's the Founder of Theta Healing, one time she had a little chat with her higher self about money and she asked her higher self, "Hey higher self, why am I having so much trouble making and keeping money?" And the higher self answer was "Huh, what's money?"

So our soul is not in tuned to these material things at all it just doesn't care. So we would nearly always choose that being close to God and so you'll stay poor lifetime after lifetime, generation after generation, all because of that one little belief. So let's go unclear that. Okay all done. And so if you guys know how to test go ahead and check again *I have to be poor to be close to God*. And now it should be a false or a clear. And so that's a removal of a block which can make a big difference in your prosperity.

We'll do one more right now. For those of you who are testing I want you guys to test *I have a vow of poverty*. And so if you got a yes or a forward that means that you have this old belief system, this old energy where you promised to stay poor

and you may never have made that vow in this life but you might have carried it from another life or from an ancestor and now it's keeping you poor and causing the Law of Attraction to not work for you. So I will take a second to go silent and make that shift. Okay and let's try that again. For those of you who can test please retest *I have a vow of poverty*. And now it should be cleared.

Edward: Well I have to tell you my experience on that when you said that last one I could feel this like deep rumble of anger sort of rumbling up my belly and I was like, wow where did that come from? And then when you did, and I've never done Theta Healing, so I don't know what you're doing actually I'd love to explore that a little bit, but as soon as you said that that anger just cleared out, that energy was gone.

Brent: It's amazing isn't it?

Edward: It is.

Brent: And it happens fast.

Edward: Yeah.

Brent: It's so fast and so easy.

Edward: Yeah. So can you share a little bit about the technology and what you're actually doing or is that ...?

Brent: I can share a little bit.

Edward: Yeah.

Brent: Really what I'm doing is I'm connecting to a conscious Theta brainwave. And so if you learn how to access a conscious Theta wave you can directly work with your or anybody else's subconscious mind. It's like this magical key that unlocks the subconscious and so learning to access the conscious Theta wave is how you heal instantly, it's how you talk to the dead, it's how you do remote viewing and future readings, it's how you do effective manifestations for money and success, all that stuff. All the research and all the experience all points to it's all about the Theta wave and that's why it's called Theta Healing.

And so by accessing a conscious Theta brainwave you can heal your subconscious mind. And so it affects not only your physical health but also your emotional health, your career, your relationships, your spirituality, your intuitive ability. And it's so powerful because by getting to that conscious Theta wave and learning how to tune into the right energy to direct the healing you can literally reprogram yourself for anything you'd like to have in your life. It's just a matter of how many blocks do you have to clear through before it manifests for you.

Edward: So you're tapping into your conscious Theta wave and then from that connection or with that connection you're able to create a change in our subconscious ...

Brent: Exactly.

Edward: ... Theta brainwave.

Brent: Yeah exactly. All of our minds are connected together in what you might call a Cosmic Internet. Everything in the entire universe across all the dimensions is all connected. All of our spiritual teachers have been telling us that in various ways for thousands of years. And so what I'm doing is from that conscious Theta wave I'm able to go out over that network and access all of the other minds that are here on the call and listening to the recording. In the same way that if I were a computer tech I could remotely log into your computer system and do upgrades and fix problems.

And so one thing that's really nice is that using this technology Theta Healing in the *Formula for Miracles* to reprogram the human subconscious is about a million times easier than programming real computers, it's much faster, it's much easier, you just have to kind of get close; you don't have to be perfect. And so that's why it's so easy to shift hundreds or thousands of people all at once because we're all connected. All of our minds are connected to this cosmic Internet and all I'm doing is using the technique. And I have setup with my *Formula for Miracles Technology* all the engineer. So it's very easier for me to just go out and connect into everyone and make all those changes very quickly.

Edward: Now how does this technology relate to and/or differ from like brainwave entrainment technology where you're in training your brainwave to a specific frequency, in some cases to Theta frequencies?

Brent: Well this technology does use brain entrainment so that is one part of what we do, though there's more to it than just that. The brain entrainment which I use in the *Formula for Miracles* products is using of the bannerol beads to entrain your brain to a specific brainwave. And so that's one piece of it. When I do it live like now we're in a private session I'm doing an entrainment entirely with the mind. And what happens is when I connect to your energy your brain actually entrains the mind and that's how I'm able to shift everybody very quickly into a Theta wave without needing to put you into a trance or hypnotize you or give you any training ahead of time. It all happens automatically through that entrainment mechanism.

And so the entrainment is a piece of it but there's more to it than that because once you've gotten yourself to a Theta wave you then have kind of your mind open and it's now malleable and changeable. Not only do we need to be able to get into

change it but you need to know what to change and how to change it. And so Theta in addition to entraining brain also comes with a rich set of tools to very cleanly and easily and safely reprogram the subconscious.

Edward: So now this just came to me and it seems a little bit like this could be potentially used by someone who wants to control other people or put maybe negative beliefs in someone. Is that true or is this something ...

Brent: That's a valid concern but that generally won't happen because the energy and the frequencies we're using here only work with permission.

Edward: Okay.

Brent: And so when you guys are on the call and wanting to have that change you're essentially offering me permission to make that shift without your permission the process doesn't work.

Edward: Right. And so we're offering you ...

Brent: Yeah.

Edward: ... explicit permission just by ...

Brent: Exactly.

Edward: ... the fact that we're here we're saying "Yes we want to have our abundance consciousness raised and our abundance can go ..."

Brent: Of course.

Edward: Yeah.

Brent: And of course this whole free will issue can get in the way of life sometimes because I don't know how many times I've had clients or people to say "Oh, you know you really need to do some healing on my girlfriend or my father or my ex-husband or whatever it is." And "oh, if you could just do some healing on them that would make my life so much easier." Well unfortunately you can't do that.

Edward: Yeah.

Brent: They have to offer permission and be a willing participant otherwise it just doesn't work. And so this would not be very effectively used like black magic because it requires a permission that would just kind of shut it down in terms of trying to manipulate people to control them.

Edward: So there's some questions on the line and if you have questions go ahead and enter them into the webcast. I'm not seeing comments show up so I don't know if they're not working for you or not on the bottom of the live page, but if you enter them into the webcast I'll be able to see them in here and I'll be able to ask Brent

some of your questions. We won't get to all of them we've got almost 500 people on this call as well, so I definitely will not be able to get to all the questions but definitely go ahead and also enter your comments and let us know so that I can share with Brent and share with everyone what you felt when Brent did the Theta Healing download. So I'd love to hear and it'll be great for us to get some feedback like that.

So a lot of people are asking things about other than abundance things. And this call isn't about other than abundance but I just want to address it quickly for them to say the healing work with someone's talking about quitting smoking, someone about losing weight, someone's talking about blocks to having a loving partner. Can it work in multiple areas of your life?

Brent: It can work on anything. Every aspect of your life is created out of your subconscious mind. So if you change your subconscious beliefs about your reality your life will shift. And so I'd say the big two, the two primary reasons I work would be physical health and prosperity. I'd say those are kind of tied for first emotional health and relationships wouldn't be too far behind. And in terms of specific diseases or issues, yeah, they're all created out of your mind so this can be a great compliment or adjunct to the other things you're already doing.

Edward: Right. Vickie in Venice, hey Vickie, asked a great question in terms of actually becoming a Theta Healer. Can anyone do that or is this a special gift? I mean do you feel like you have a gift or is it something that you really can be taught, that anyone can be taught?

Brent: I would say it's both. It's something anybody can learn but like any skill or discipline there will always be people who have a certain talent for it and they may be able to learn it faster or do other things others can't in the same way that anybody with a little bit of training can learn how to throw a baseball and swing a bat ...

[Crosstalk]

Brent: ... but not everybody necessarily has the, right, inner talent to be a pitcher in the World Series.

Edward: Right.

Brent: But everyone can certainly learn the basics. And so Theta's the same way, everybody has this ability and every person and probably lots of non people too. Anything that is part of the universe has this ability because we're all connected. And so one of the great things about this is that you don't need any particular talent or training to learn how to do it. And I remember when I first took the

basic training class it was almost eight years ago now, here in Los Angeles with Vianna. There was probably close to 100 people in the class.

Edward: Wow!

Brent: And I swear that I was the world's biggest psychic retard. I was dead last in terms of my ability to learn this and do the exercises and all that. I wanted it so badly. I had this huge amount of passion to learn it but I just had no ability, no talent, I was just the worst of the worst, but you know what I didn't give up. And I hung in there and I practiced and I trained and I learned and I innovated and I created new ways of doing things. And eight years later I'm probably equal to or far beyond everybody else that was there in the class who was so much ahead of me at that point. And one promise that I make to all of my students is that if you come and learn this and you use it the way I teach you and you practice it the way I have I guarantee that when you've been doing it as long as me you'll be better than I am today. Guaranteed because we have so many more resources, so much opportunity to learn from other's experience and mistakes, you'll learn much faster. So yeah everybody can learn to do this. Not everyone's called to do it full time ...

Edward: Sure.

Brent: ... but wouldn't you like to know how to do this the whole rest of your life?

Edward: Oh yeah ...

Brent: I mean ...

Edward: ... because you do this on yourself I would imagine.

Brent: Of course.

Edward: This is a self-aligning technique as well.

Brent: Yeah I mean I could bore you guys to tears with stories of the amazing things that I've seen happen, just little things in terms of traffic. I mean just last week I left at 4:00 to get from Canoga Park to Santa Monica, which you guys who live in Los Angeles know that that's just ridiculous and I did it in 35 minutes which is basically impossible.

Edward: Wow!

Brent: In a big moving truck full of stuff.

Edward: Oh my gosh.

Brent: Yeah and so that was just a little thing because I was like, oh my God there's no way I'm going to make it. So I just did my Theta manifestation and turn it over,

surrendered it and next thing I know, Bingo, there was no traffic the whole way pulled in plenty of time. That's just a little example. I've seen ...

Edward: Yeah, but you know that can come in really handy.

Brent: Sure, I mean I use it every day of my life and it's almost cheating because you can use the products to build your business.

Edward: Why is that cheating?

Brent: Because it goes so much against what we've been trained to think are the rules of our reality. We're wrong about a lot of that you just haven't had the technology to do things differently.

Edward: Yeah

Brent: And so, yeah, you said all the time there's certain things in life that are real life changer, pieces of technology that once you have something integrated into your lifestyle you never want to go without it. For example, access to the internet once you've had it, once you've gotten use to it you wouldn't want to be without it.

Edward: That is great.

Brent: Or having a cell phone same thing.

Edward: Yep.

Brent: Twenty years ago we didn't have them now we can't live without them. To me learning Theta Healing is more valuable and more important to me than all the rest of that technology all wrapped up together.

Edward: You would give up the internet ...

Brent: Oh yeah.

Edward: ... but not Theta Healing.

Brent: Absolutely because the internet, you know it's great but Theta Healing is everything it's your relationship with the universe, the source of your prosperity. It's the source of the internet and your cell phone and all the other people you use to connect and share files with and talk to right.

Edward: Yeah.

Brent: Yeah. And I remember when I first learned Theta Healing from one of the first practice groups I went to the teacher asked everybody well if you could have just one thing in your life what would it be, because we were focusing on prosperity and abundance. And so everyone went around the room and gave great answers. Someone said "I want to own my own house" or "I want to pay off the lease in my car" or "I want to be healed from cancer", all this was great stuff. And when it

came to me I said "I think all you guys are crazy. If I could just have one thing in my life I'd be a master of Theta Healing because then I could get all of those things that you talked about pretty easily.

So yeah, I'd like to think of this as a toolkit for higher dimensional living, learned how to access that five dimensional space because you're going to have to if your life hasn't crashed around you yet, you've been lucky so far. We're all being tore down and rebuilt anew as is the world around us. We see that the great shift everything that's happening in the world it's all building to a change point you learn this should be right for it.

Edward: And I think a lot of people on the call are feeling that whether their worlds are being torn down or whether they're just feeling it internally. I think that probably most of the people on this call are feeling that shift and the really profound depths that our foundations are being shaken at. And to have the tools to be able to withstand that shaping and come out on the other side is really, really important right now. So the Theta Healing tools, one of the tools, is going to let us get through this shift and get through this transformation and get into that higher consciousness that I believe, and it sounds like you believe, is waiting on the other side of this transformation.

Brent: Oh yeah absolutely because the old way of being in four dimensions with our linear time and our linear thought process of cause and effect that's not working anymore, it's not working as individuals and it's not working in the world. So we need to add another dimension. And so this stuff, this instant healing and the manifesting for people who haven't had firsthand experience with it, it does seem kind of mystical and magical at first but it really is technology. And what we're literally doing is accessing a higher dimensional space. And so the way I like to think about this if you imagine if the whole world was in two dimensions, was all in a flat land, if you could access that through a dimension you'd be a God wouldn't you?

Edward: Yeah.

Brent: You could do things that seemed impossible that defied reason or logic to those around you. But that's exactly what we're doing with Theta Healing, with instant healing and manifesting and all the incredible things that happens all these miracles where literally we're just accessing a higher dimensional space. We can't see it directly, we can't really understand it, but it's like electricity in that it's invisible and mysterious but you can't mistake its effects, you know it's real, because it's consistently behaves at certain principles and laws and give these outcomes over and over. And so Theta Healing and the *Formula for Miracles* is

just like that it's a five dimensional technology that gives you the tools, especially when you're in a place in your life when the four dimensional stuff doesn't work.

Edward: Right.

Brent: If you see them in a difficult or impossible situation it probably is impossible from your perspective with the tools you have access to with your knowledge and resources.

Edward: Yep.

Brent: And so there's a higher power waiting there for you in that higher dimensional space you just have to know how to access it.

Edward: Yeah.

Brent: And that's what this does and so ...

Edward: Brent, can I jump in here because we're ...

Brent: Yep.

Edward: ... getting near the top of the hour ...

Brent: Okay.

Edward: ... and there's still a bunch of questions. I mean I could talk with you about this for a long time but I definitely want to give you time to share your *Formula for Miracles* and the *Unleash Your Inner Millionaire Program*, because this is something that I think a lot of people are going to be interested in and I want to make sure that we have time to do that. And then if you have time, and obviously I know your time is really valuable, but if you have a few minutes to stay a little bit after the hour I'd love to ask a few more of the questions that people have asked on the site. But let's start, can you just tell us a little more about this *Unleash Your Inner Millionaire* because it just from what I've seen it sounds like such an amazing program.

Brent: Yeah. I developed what I thought would be for most people the single most powerful prosperity tool that you've ever seen or ever used, and that's because it addresses a 100% of your mind to get you completely involved and clear your block so you can get out of your own way and really let the prosperity flow. And so it's approximately eight hours total, it's a set of MP3s and so it's divided into two sections, one is presentations the other is block clearing using the *Formula for Miracles Technology*. And in the presentation sections I talk about really what I think of as the state of the art in manifesting and try to tie together a lot of other things people have seen that may not have made sense before.

So you'll have a whole new way of thinking about your reality. And I mentioned that just a tiny bit earlier when I talked about the metaphor of thinking about how you have software inside of you that creates your world. And so that is matched with all the block clearing using the *Formula for Miracles Technology* where it goes through and automatically clears 327 of what I've identified as being the most common and most powerful blocks to prosperity. And so when the program in the introduction it talks you through the muscle testing in case you haven't done that before so you'll learn everything you need to know about muscle testing, and then you'll actually go through and it comes with a file you can printout which has all the blocks that you can use to follow along and check them off as you clear them listening to the program.

Edward: So that's 357 blocks that you're going ...

Brent: Three hundred and twenty-seven I think. The only caution I would ...

Edward: And that was just like you did on the call today.

Brent: Yeah.

Edward: That's the same kind of process.

Brent: Yes but about 100 times more of it.

Edward: Wow!

Brent: And the only thing I would caution people is, and it's a big warning on the program too, you want to use it slowly you don't want to use this all at once, because this can make for a lot of people a radical shift in their subconscious belief systems. And if you shift too much too fast you're going to be unhappy, you're going to probably get really sick. We don't want that to happen so we encourage you to just take it slow, do it maximum one block clearing section a day until you get through the program.

Edward: And so what we did tonight you did about four downloads.

Brent: Yeah.

Edward: How would that compare to what you're calling a Block Healing and how much ...?

Brent: Each section is probably something like 40 or 50.

Edward: Okay. So we did about a tenth of what a person ...

Brent: Yeah.

Edward: ... would do in a day or ...

Brent: Yeah in one day. Yeah. So it takes most people about seven or eight days to get through the whole program for using it every day.

Edward: Okay. And at that is a pace that isn't going to blow you out. It's not going to ...

Brent: Yeah for most people should be fine with that.

Edward: Okay.

Brent: yeah. And so that will clear out all sorts of blocks to prosperity. In addition to that as part of this special offer tonight what I've done is I've not only lowered the price on the *Unleash Your Inner Millionaire Program* but I'm also creating a bundle where I'm essentially giving you everything I've ever created. And so once you get this I really don't have much else to sell you and ...

Edward: So was there anything else people would need or is this like ...

Brent: Well actually there is and that's actually part of the bundle.

Edward: Oh wow.

Brent: And so it comes with not only the *Unleash Your Inner Millionaire Program* but it also comes with two other of the *Formula for Miracles Programs*. One is an allergy clearing program that is useful and has a very high success rate in completely healing allergies just by listening. There's also a trauma clearing meditation that can be very powerful for clearing traumatic memories out of the subconscious. Those all come with it.

Edward: Childhood traumas and ...

Brent: Sure yeah, exactly. Even something like the last election that was a big deal for you. All these things can leave huge dramatic imprints that can affect your life.

Edward: I shouldn't laugh but ...

Brent: And so it all depends on how seriously you take it I guess. It also comes with both of my books *"Where Science Meets Spirit: The Formula for Miracles"* as well as *"Spiritual Weigh Loss"* It also includes the secrets of muscle testing video which is about an hour long tutorial video that teach you everything you'll need to know about muscle testing. It also includes the deep Theta Meditation tracks the 15 minutes and a 45 minute that will put you into a deep Theta brainwave. It includes a \$500 dollar discount to the live training for you guys who might want to come out next year to learn how to do this for me over a three day weekend. And that also...

Edward: In Southern California?

Brent: Yes usually I do them in Los Angeles. It comes with the audio book version of *"Where Science Meets Spirit"* for you guys who like to listen to things in the car.

And it also comes with a 30-Day \$1 dollar trial to the *Formula for Miracles* VIP Club. And so this is optional you guys that get the package don't have to try this out but this is where I'm putting a lot of my own energy and effort nowadays. And so the VIP Club is my inner circle of people who are serious about using these tools to change their lives. And so if you want to try it you'll get a 30-Day \$1 dollar trial as part of the package.

And so you get access to all of my live events. I usually do two or three life healing teleseminars each month. One of them we're doing the health club tomorrow night. We're going to clear a whole bunch of blocks to health and also do DNA activation. I also do at least one wealth club teleseminar. Live every month clearing blocks and so you guys get to send me blocks and I clear them all out. I do special events every month to the VIP Club to give you ongoing resources for healing and generating prosperity. I'll create audios and videos and worksheets and exercises to turn you onto kind of the latest thing going on. All the things you need to know and really create simple powerful tools and be there to support you guys.

So this month we're doing one on *12 Layers of the DNA*. We had recent events on *8 Days of Prosperity* and *7 Steps to Happiness* and many different similar theme programs. And so that is kind of my ongoing relationship to you to give you guys everything that I can find so you can be using these tools to change your life day to day. And so you're essentially again getting a bundle of everything I've ever created all rolled up into one package.

Edward: Wow!

Brent: The price we're setting I believe is \$97 dollars for the whole bundle.

Edward: Yeah I think that's it.

Brent: So yeah that'll be up for the next 48 hours, and of course it comes with a 30-Day Money Back Guarantee. So if you guys try it and you don't like it and it doesn't deliver the results it promises you have nothing to risk you just get all your money back.

Edward: Right.

Brent: That doesn't happen too much though. Almost all of the people who ask for their money back are because they had technical problems or something like that. Someone used their friend's card, stuff like that.

Edward: Yeah or they just don't try it they get it ...

Brent: Exactly. Yeah or they just don't use it, 27 days later they haven't even opened the first file so ...

Edward: Right.

Brent: ... they just send it back. That's most of it because people who do use this many people see results right away.

Edward: Well I've definitely seen results and a few people left comments, so clearly just the few downloads that they did are working. I just want to give people the link. It is on the live page if you click on the button there for the Special Offer that will take you to Brent's Special Offer. It's also if you go to [www.AbundanceSummit.com/Brent](http://www.AbundanceSummit.com/Brent) that will take you there as well.

So Brent I thank you so much. I don't know do you have a few minutes to stay on ...

Brent: Sure.

Edward: ... a little bit loner.

Brent: Sure I'll stay on and answer a couple of questions.

Edward: Okay great. There's a great question from Kathy Bedford Hills, and this usually comes up around Law of Attraction and a lot of modalities where she wonders if it's important to repeat the healings. Like the download that you just did where you basically downloaded new information about Vows of poverty cleared that block, is that something that would need to be repeated or once it's done is it done?

Brent: Generally it's permanent the difference being that if I worked with someone in a private session and we did a deep digging it's pretty close to 100% permanent. When we do a group event like this the result will hold, I would say, anywhere from 80% to 95%. Because sometimes there's other belief systems that are underneath it that are more powerful that may recreate it. And so for the most part you don't have to worry about it. Anyone that is curious I always encourage people to write this stuff down and then test it again in a week or a month and convince yourself that yeah this is real and it really does hold most of the time, nearly all of the time but there are exceptions. Anyone that said it's 100% permanent all the time you would know they'd be lying because they're trying to sell you something.

Edward: Yeah. Yeah. A quick just a logical question from someone in Canada. This is all digital right, are you actually ...

Brent: Yes.

Edward: ... shipping products or not, this is all digital?

Brent: No this special offer is all digital.

Edward: Okay.

Brent: and when you guys see the volume of material again you'll understand why. If we had to actually print and ship this much material we'd have to triple the price.

Edward: Okay good. So do [Jualle] I'm not sure quite how to pronounce your name in Canada. Everything is downloadable so that nothing will be shipped so you don't have to worry about shipping to Canada. Angela in Sante Fe I just want to share this with you. She says "I got a confirmation via chill that help the energy flow through a quick burst." Thank you [inaudible 1:02:04] to ask.

So I'm wondering, there's a bunch of questions but I'd almost rather just have you take us through a couple of more downloads. Would you be willing to do a couple of more?

Brent: Sure we can do that?

Edward: Yeah and ...

Brent: Any particular topic you want to address?

Edward: Well whatever you're feeling drawn to around money. Let me see if I can just grab something quickly. Someone has a block to receiving money.

Brent: Okay.

Edward: She says "I give freely but feel unwilling to charge and receive.

Brent: Okay why don't we do a couple around that?

Edward: Okay perfect.

Brent: So I'm going to go in and reconnect everybody here. And so I'm actually doing the Theta process when I go silent and if you guys were curious it actually only takes me a split second to do it but I'm intentionally waiting longer, otherwise you won't notice that anything happened. So I just slow myself down a little bit. So what we'll do here, if you guys who are muscle testing and want to follow along, I want you guys to test *I want you to receive*. And so now we're going to go and do that download with Theta Healing teach everybody how to receive. Okay. And if you're muscle testing retest *I know how to receive*. If it was a no it should now be a yes. And we're teaching you to receive. It's very common that people who have difficulty receiving have problems with their elbows because the elbow is how you receive something from the world and bring it into yourself.

Interesting yeah, in the same way that many people struggling with money will have lower back pain there's a direct connection between your physical body and the experience you're having with your prosperity. It is all created out of the same subconscious belief systems as the energy inside of you. So now let's move on

and do another one. Let's now for you guys who were able to muscle test go ahead and test *I deserve to receive money*, and if that's a no or a backwards we're going to do a download to install the belief that you deserve to receive the money. Okay all done. So you guys who were muscle testing test again *I deserve to receive money*, and hopefully that'll be a yes for most or all of you guys now. All right we'll do one more here.

Edward: Right.

Brent: Okay let's test *I am worthy of abundance* and so now I'm going to do a download to show everyone that they really are worthy of abundance. Okay one more time. Let's test *I am worthy of abundance*. And that should be a yes for everyone or nearly everyone now. And so there's another little sample of going through the Theta process to go and clear blocks and install downloads. So you get your subconscious mind engaged to be creating more abundance and prosperity because those of us that have been at this for awhile and gotten it wrong for a long time and finally learn to get it right, once you get it right it really is magical. Money just shows up and it's just oh my God. It just shows up all the time and it's kind of relentless but like any technology if you're not getting it quite right you can use it forever and get no results. If you have an airplane that's 99% correct you can try to fly it every day until the end of the world it's not going anywhere. But once you get that last piece in place then you take flight then you're soaring and then you're creating a miracle.

Edward: Yeah. Well this really is I mean I don't muscle test but I can feel the shift happening and then I feel it in my energy, and I feel it in my body. It's almost like my mind doesn't want to believe it because ...

Brent: That's a big problem in fact.

Edward: Well it's interesting because you know the healing work that I do it always takes longer.

Brent: That's where most of our belief systems are.

Edward: Yeah.

Brent: Most of us have belief systems that things take time. And so if you have those beliefs in your subconscious then you will attract and manifest experiences where it takes time.

Edward: Yeah.

Brent: But it really can happen in an instant you just have to be ready for it.

Edward: Well and I told you, yeah.

Brent: Yeah.

Edward: Yeah. So it's really amazing to sort of blow up that belief that big shift need to take a long time, right now , boom, done. Wow! Well Brent this has been really, really amazing. I have really enjoyed connecting with you. I really enjoyed our conversation and the healing has been just a very, very eye-opening and heart opening and energy opening experience. Is there anything else that you want to share before I let you go I'm going to stay on the call for a little bit and just let people know what's up tomorrow. But is there anything that you want to say before we sign off.

Brent: Sure. The last thing I'll share before we sign off is that I made it my personal mission to first master this and then take it out to the world because I've seen the amazing things it's done for my life, my friends, my family, my clients and students and so I've made it my mission to get this out there. And so I would be very happy to connect with anyone who wants to join me and my goal which is by the end of 2012 I want to teach 1000 people Theta Healing. And then after that I want to work with them to actively support them so that they can go out and teach 1000 people Theta Healing.

Edward: Great.

Brent: And so in the same way that we can use this technique as individuals to heal our body is to generate abundance, to fix our lives as individuals. Down the road we're going to have to band together and there's going to need to be large numbers of us working together doing that we can then take on the big picture stuff, Global Warming, Terrorism, Pollution, Corruption, Economic and Equality, all that stuff that goes on in the world. And so that's really in the long term what I'm about. And things like tonight I love to get out there and talk to people and offer you guys an incredible deal on my products because I want you to use this, I want to make you my success stories, I want to hear about your miracles.

Edward: Yeah. And this is obviously a much bigger topic and maybe I'll get you back on another comment, but just very quickly, you really peaked my curiosity there when you talked about sort of global issues, environmental issues. Is Theta Healing something that you can use to sort of influence the greater world outside of your own sort of micro ...?

Brent: Yes you can but to make significant, especially long term changes, we need groups, especially big groups.

Edward: Yeah.

Brent: And so that's very difficult for one person to do. I've had experiences changing the weather, things like that, but it's temporary and localized.

Edward: Yeah.

Brent: If we want to have a permanent shift on a larger scale to affect your city, your state, the country, the world, then we need to get big groups of us working together towards one goal. And I'm hopeful that you guys will get my materials and some of you guys will be called to it like me. And then we can go forward and working together we really can heal those things too.

Edward: Yeah wow, this is so exciting and I am so thrilled that you're on this call and so thrilled that you're doing this work in the world and you're sharing it with people, and you've come on and shared it with you. I really want to express my deepest gratitude and appreciation for you coming on today and sharing your gift with us. Thank you Brent.

Brent: No problem, glad to be here.

Edward: Okay thanks. All right everyone this was an amazing call, an amazing two calls today Ann Taylor and Brent Phillips. What a great way to start this summit. Oh my gosh I'm just - I don't know if you can tell, maybe you can, but I'm kind of flying, kind of buzzing here from this energy and I'm just going to keep going, it's just going to keep building. As I said at the beginning of the call we're building a war pack of positive energy of people who are powerful, positive energy so that we can all get them to move into TRUE Abundance. And tomorrow it's just going to keep going. Tomorrow's got two amazing people Amethyst Wyldfrye she's an Energy Mastery Coach, she's going to take us through her Star Treatment Sound, Therapy, Activation and Rejuvenation. She's going to use her voice, it's a sound healing modality and as a musician and someone who recognizes the power of sound. I am really, really excited to experience Amethyst's Star Treatment.

And then tomorrow evening at 6:00 it's Anodea Judith and Anodea's one of my sort of a virtual mentor. I really love her work. She is the creator of Sacred Centers which is all about the Chakra System and she's probably one of the world's foremost experts on the Chakra System and the human energy system. And she is going to be sharing what very few people share when it comes to the chakra and that is the downward flow of energy, the manifesting current that comes down from above. Most of the people who are out there teaching about chakras are teaching you to go up from your root, the Kundalini energy going up and out and taking you up out of your head into the atmosphere, which is all great but if you want to manifest you got to have that energy coming down, you got to have that manifesting current coming down. So Anodea is going to take us through a process that's going to activate that current. So I'm super excited about that.

So tomorrow is going to be another great day. I sure hope you can make it to the calls. If you are not able to make it to the live calls go and grab the stream package, it's just \$9.95 through the end of the night tonight, \$19.95 after that. And even that is an amazing deal you get unlimited access, you don't have to worry about getting it in 24 hours. Just go to the Welcome Page [www.AbundanceSummit.com/welcome](http://www.AbundanceSummit.com/welcome) and you'll be able to grab that streaming upgrade. And if you really want to take this to the next level go ahead and get one of the lifetime upgrades they're available. I'll send a link out via email but that's going to get you lifetime access to the MP3s, the transcripts, CDS if you get the platinum package, a whole bunch of bonuses, it's just going to really make a difference in your world.

And so I think that's it. Oh I see the winner, let me tell you the winner from Ann Taylor. Nancy from North Adams, Mass my home state, Nancy on Ann Taylor's call she's going to get a free full scholarship to my upcoming Energy Blueprint Upgrade Course that's coming up at the end of the month. And she wrote on Ann's call *"Even with all the work I have done and how much I have grown, I didn't know that I was living in such a cloudy bubble of being cut off from abundance. Suddenly and instantly the bubble has been burst and nothing is in my way. It's weird because I feel something that has always been with me is just gone. I feel empty but in a good way, empty of limitations. Thank you."* And I just love that she said she's empty of limitation. I just resonated with that so completely this idea that there's no more limitation, you're open to receive, you're open to allow, those limiting believes are gone, I just love that.

So Nancy I don't have your email address so go ahead and send an email to [support@abundantmystic.com](mailto:support@abundantmystic.com) and we'll get you hooked up with a scholarship for that. And I'll be announcing the winner from tonight on tomorrow's call with Amethyst, so if you want to go ahead and leave a comment you can do so. And you may be the one who gets in. All right everyone I am so thrilled you're here. I am so excited to see where this goes and how this energy builds over the next four days now. If you have any technical issues you can always leave a message at [support@abundantmystic.com](mailto:support@abundantmystic.com).

Until tomorrow stay abundant, stay in that high vibration vortex place, feel your energy, feel the love, feel the abundance and I will see you tomorrow and hear you tomorrow on the calls. Much love to all of you and goodnight.
